

Submitter: The Reverend Robyn Hartwig

On Behalf Of:

Committee: House Committee On Revenue

Measure: HB4115

As people of faith, we believe it is our sacred responsibility to care for future generations and care for the Earth. Treasury must be accountable for investing our public funds to promote a healthy environment for future generations of Oregonians. Transparency is a vital first step in allowing us to act together to ensure that state funds foster these values.
