

Submitter: D Clark
On Behalf Of:
Committee: House Committee On Revenue
Measure: HB4115

I am a PERS member and I care how my retirement savings are being invested. Historically, the Oregon Treasury has not been transparent. These investment holdings are public information and should be treated as such.

As a PERS member, I support The Treasury Transparency bill (HB 4115), which will ensure that our Treasury publicly releases a complete list of all portfolio holdings in every asset class. Just like any other investor, who needs to provide accounting, the Oregon Treasury has a responsibility to tell Oregonians how our money is invested. Moreover, the Treasury Transparency bill (HB 4115) will ensure that if the Treasury is doing a climate risk assessment of their investments, the results of that assessment should be available to the public as well.

I urge your support of the Treasury Transparency bill (HB 4115).
Sincerely,
D Clark
