On Behalf Of: Concerned Citizens

Committee: Senate Committee On Judiciary and Ballot Measure 110
Implementation

Measure: SB1510

I urge you to vote NO on SB 1510. This bill prohibits officers from making traffic stops based on improper vehicle lights, which will lead to reduced safety. Often times people who are pulled over for light issues are DUI cases and are posing a risk to everyone around them and by making it more difficult for law enforcement to keep people off the road who shouldn't be driving in the first place you are putting law abiding citizens and their children in danger. To play the race card with this bill and make white officers, law enforcement in general, and police departments and jails/prisons out to be oppressors for the far lefts agenda is truly disgusting and dangerous. I feel the need to remind you law makers that reverse racism is still racism.

The \$10 million the lawmakers behind this bill want to push to The Northwest Health Foundation which is dedicated to "eliminating laws rooted in white supremacy" is a waste of tax payer dollars that would be funneled to a racist and Marxist group. These initiatives decrease public safety, and the most-impacted are the very citizens these initiatives purport to serve. Shame on you folks. I urge you to vote NO on SB-1510. Thank you.
