

Submitter: Margaret Scott

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: HB4058

Margaret Mary Scott  
1274 Iowa Street  
Ashland, OR 97520

Chair Marsh and Members of the House Committee on Environment and Natural Resources:

I write in support of the effort to extend energy efficient home cooling and heating to all Oregonians, especially those with lower incomes. All Oregonians will reap the benefit of the cleaner air conditioning supplied by the newer generation of heat pumps and clean electricity to run them.

I have a mini-split heat pump heating and cooling my 1000 sq ft. house and it has saved energy and money for me and I think everyone should have the same options.

It makes sense economically, morally and environmentally that we help install clean heating and cooling in all Oregon homes; therefore I support adoption of HB 4058. Thank you for your efforts in this legislation.

Sincerely, Margaret Mary Scott
