

Submitter: Mike Daniel

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

I strongly oppose SB 1589. Banning wakesurfing and making more restrictions on wake boats in our area will have a negative affect on many things including businesses like mine. I own a fiberglass company and we do work on these boats. If SB 1589 goes through many people will sell their boats or move out of the area which would take business away from me and the 35 employee's families that work for me.
