

I am a retired child care provider living in Lorane, Oregon. I am personally feeling the effects of the climate crisis with potential wild fires and droughts and population changes in the summer, and a constant worry about severe weather and lack of electricity in the winter. I also have learned a lot recently about the inequities of our government and how precarious our democracy is. It is more and more clear to me that how we all live our lives, including the decisions we make regarding the running of the State of Oregon have a tremendous impact on the existential crises we are facing regarding the whole planet and all of the people, animals and plants which live on it.

That is why it is so important that we pass HB 4115 to insure that there is full transparency regarding the holdings of the Oregon Treasury to insure that we are investing in ways that match our state's needs and our values.

Thank you,
Kyle Rolnick
