

Submitter: Indra Nicholas  
On Behalf Of:  
Committee: House Committee On Education  
Measure: HB4099

Another massive waste of time and money. These “equity” and “social justice” bills do nothing to help people. A small group of people take in millions of dollars to peddle this stuff. Yes, Oregon is FAILING our youth. Education is the the great equalizer, and we are failing to educate our children! Children who come from families with money pay for a good, private school education. Those that can’t pay, the very children you are trying to help, end up in your failing public schools that teach hate and oppression instead of core academic subjects. YOU are the people hurting all children’s chances for success. Let the money follow the kid, so ALL children can get a decent education.
