

Submitter: David Medford

On Behalf Of:

Committee: House Committee On Revenue

Measure: HB4115

This Treasury Transparency Bill (HB4115) will shine needed light on the holdings of the Oregon Treasury, which manages \$130 billion of our money . These investment holdings are PUBLIC INFORMATION and should be treated as such . The Treasury is in possession of the data and should provide them once a year . If the Treasury is doing a risk assessment of their investments , the results of that assessment should be available to the public as well . Thank you .
