

Submitter: Liz Hamilton

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: HB4130

I am writing in full support of HB 4130. Wildlife collisions are a dangerous human safety hazard, especially in places where roads intersect important migratory corridors. As the effects of climate change worsen, these tragic collisions will increase. For resiliency of our wildlife resources and human safety, built wildlife crossings must become a part of the cost of doing businesses. I would love to see the fund doubled! Thank you for your service. Liz Hamilton
