

Submitter: Faith Wolfe
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1521

As a life-long citizen of Oregon, I entirely OPPOSE the passage of SB 1521. School board members are elected by the communities and should be able to remove superintendents if they are acting in opposition to the will of their local community. Entrenching this position with the 'protection' from liability for their actions that this bill would give them is irresponsible and will alienate the communities you are purporting to serve.

Vote NO on this and leave control of school boards and schools under the control of families and their locally elected school board members.

Stop seizing power from the people to force your agendas through.

Stop silencing the public's voices and refusing to hear those who oppose your failed ideas.

Stop acting like dictators and ramming your ineffective 'solutions' down our throats.

Just because you *can* force your dictates on us, due to a Democrat super-majority and a governor who is on your side and drunk with the power she has seized, doesn't mean you SHOULD. It doesn't mean there will be no consequences. It doesn't mean the people themselves want these things.

Might does NOT make right!

Start listening to -and heeding!- the citizens of the whole state, not just your cronies. Oregonians are tired of it.
