

Submitter: Roger Warren  
On Behalf Of:  
Committee: House Committee On Revenue  
Measure: HB4115

I think this is an accounting function that is part of openness in government. The Treasury Department has provided this report upon request to Divest Oregon in the past and could do it annually for public release. I understand that other states do provide this annual report. The Department is well-run and could meet this reporting standard.
