

Submitter: Dorina K
On Behalf Of: OMU
Committee: Senate Committee On Education
Measure: SB1521

This bill if it passes will allow for more abuse by superintendents. We can not allow for more restrictions on when I superintendent can be fired. Current laws protect discrimination against firing anyone including a superintendent for arbitrary reasons. Therefore this bill is not needed or necessary. Vote no on this bill.

Children are punished if they are forced to deal with a superintendent that does not follow constitutional rights. Covid has already taken away many rights of school children don't add to that by passing this bill that will essentially keep inept superintendents in their positions to further harass and abuse children.
