I strongly oppose this bill. If you're not familiar with a socialist agenda, read this bill. \$115.5 million of wealth redistribution. If there is that much in the kitty from the biennium budget, why did you rob the kicker funds? There are plenty of nonprofits doing an excellent job of training and finding jobs for those in need. This bill goes hunting spreading money without a need criteria, and does not serve those that are in most need. This is a black-eye on government overreaching its powers to centralize programs being handled by local communities.
