

Submitter: Mackenzie Waggoner
On Behalf Of: My family and close friends
Committee: Senate Committee On Education
Measure: SB1521

The superintendent should be working with the elected school board, the board that speaks on behalf of members in the community. If the board finds that superintendent to not be working on behalf of the community then they should have the right to terminate them. This is not a state matter this is a community matter and should be solved on the community level.
