

Submitter: Brian West

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1521

I am a local School Board Member and I feel that the people elect the board members and therefore answer to them. There should be no infringement on how a School board is to direct Superintendents and therefore this bill should be removed from any type of vote. City Managers and similar positions are under the purview of boards all the time and therefore I do not see the Legislature trying to modify those positions. This bill should not move forward and the democracy should stand on how this is today.
