

Submitter: Mary Lou Belozar

On Behalf Of:

Committee: House Committee On Health Care

Measure: HB4081

Working as a health care provider I think it is vital to have offer naloxone prescriptions to folks on 90 Morphine Equivalent or higher or any combination of opiate and gabapentin or opiate and benzodiazepine within the last year. Aware across US with 39% increase in overdoses over the last 2 years. Aware Oregon is #2 in substance use for capita and dead last in access to recovery services in US.
