

Submitter: Nancy Matheny
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1521

Dear Senate Members:

Successful local stewardship of our children's public education requires strong accountability.

If the Senate chooses to pass SB 1521, the local school board will no longer be held accountable by local stakeholders but by distant bureaucrats. Local stewardship means eyes and ears on the ground.

Please honor our children in public education by retaining stewardship of their education at the local level.

Let's do the right thing for our children. Do not pass SB 1521.
