

Submitter: Nathan Karman

On Behalf Of:

Committee: House Committee On Revenue

Measure: HB4115

I'm a PERS member writing in support of HB 4115. Oregonians deserve to understand how Treasury invests its vast holdings and the associated climate risks. HB 4115 is an important step toward understanding whether Treasury's investments align with its duties and with Oregonians' values. There is no legitimate reason to reject this transparency.
