Yes on HB4006. I am a patient and support my ND

My name is Janice L. Dyer. I am a patient of a naturopathic doctor. I had many health issues when I went to him. He spent time trying different ways and supplements until I felt better. Some helped almost immediately. My cholesterol went down and also blood sugars. I still see a nurse practitioner with both I feel positive in my health care. But one is paid by insurance and the other not. I would like for the HB4006 bill to be a yes vote.

Sincerely,

Janice L Dyer
