

Submitter: Kevin Parker

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

Dear Chair Lieber and committee,

I support SB 1589 to limit the weight of motored vessels. These vessels harm the riverine ecosystem, disrupt and endanger other river users and harm private riverside property. I live near the Willamette river and enjoying canoeing, fishing and recreating on it.

Thank you,

Kevin Paker
