

Submitter: Sara Davidson
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

We need federal testing to see how our education system stacks up against the rest of the country. We do not need to further dumb down our students. The students test scores need to be transparent so we the parents will know if our school districts are doing their jobs or not. Do not protect these money hungry school districts any more. Help our students.
