

Submitter: Michael Boquist
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1521

Dear Senators,

I, nor anyone around me can or will support SB 1521 on the grounds that it directly conflicts with the will of the people.

To us, it is an obvious attempt of retribution for the firing of the Newberg superintendent for not refusing a board action. If they are not willing to perform their duty as outlined in the Oregon constitution, then prudent and appropriate action needs to be taken before additional issues may arise.

Please stop SB 1521 before we lose more control of what direction our future is heading.

Thank you for any considerations,

-M. Boquist
