

Submitter: Ann Miller

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

I support this bill having watched the extreme degradation of the riverbank across from my home in the recent past. Trees have collapsed, a viewing platform built a couple of years ago was destroyed by the erosion. Having lived here since 1986 I am convinced this damage is caused by the recent introduction of these wake boats.

Respectfully,
Ann Miller
