

Submitter: David Wall
On Behalf Of: Mr Oregon OPPOSES SB1569
Committee: Senate Committee On Finance and Revenue
Measure: SB1569

Saturday, [02.05.22]

I OPPOSE [SB 1569] for the following reasons;

Once again, government is sowing the seeds of 'systemic racism' by segregating tax information based on a persons' race.

There are 'costs' associated with [SB 1569] which will serve to expand government which is unnecessary. These 'costs' include; increase in staff with corresponding 'overhead expenditures' which are not identified.

Proponents of [SB 1569] cry, "The Tax System in Oregon has deep roots...There are Tax Breaks giving an advantage over one racial group or another..." yet, 'No examples' of racial 'Tax Breaks' are tendered in their incessant weeping of 'Tax' related foul-play.

The 'racial data mining' from the Tax forms can be used in any number of nefarious ways enabling and facilitating endless litigation predicated on 'racial disparity' and lack of 'equity'.

The term 'Equity' is used to justify 'wealth transfer' to those who, by their own lack of; initiative, education, hard work and general productivity predicated on some misguided notion ;life owes them unearned wealth due to their race.

Everyone should be treated 'Equally under the law' and...there should be swift, certain and severe punishments levied on those who violate the law.

I think that about covers my OPPOSITION to [SB 1569].

David S. Wall
