Measure: HB4002

I am an Oregon consumer of food products. I oppose this bill. I am concerned the price of food will increase more than it has with inflation. This is not practical that farm workers work 8 hours day 40 days a week. This bill sounds like it was developed by someone that does not know about agriculture because that is not how agriculture works. Sometimes there are long days on the farm and other days shorter depending on the season. I would like to keep my food reasonably priced and local. Please do not pass this bill.

Thank you,
