

Submitter: Diane Moug

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1567

I am writing to support SB1567 as a subject matter expert. Oregon's fuel storage and infrastructure face serious seismic hazards in the inevitable Cascadia Subduction Zone earthquake event. Oregon's resilience and recovery, in addition to the safety of many communities around fuel infrastructure, following a strong earthquake event will rely on the steps proposed in SB1567.
