On Behalf
Of:

Committee: Senate Committee On Judiciary and Ballot Measure 110
Implementation

Measure: SB1541

Senate Committee On Judiciary and Balot Measure 110 Implementation,

A Drug Treatment & Recovery Fund, which pays for the critical harm reduction and addiction recovery services provided by Measure 110 is key to the health of our community. Further investing in policy militarization goes against the values of health equity Oregon strives for.

The culturally responsive health services Oregonians need and want to threat addiction can not be provided by state police or sherriff's departments so it's time we stop investing in these institutions.

Recovery and healthcare should not be accessible to only those who can affort it and you can make sure to make recovery accessible and invest in our people by voting NO on SB 1541.

Thank you for your service,

Joanne Mina
Resident of Deschutes County.
