

Submitter: James Alkire

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

The Democrats who sponsor this State Sales Tax proposal have gone completely insane. Where in your process of choking the residents of the State of Oregon did you forget that you actually work for the Taxpayers? We currently have a State Income Tax and now you want to tax us more and bleed us dry. All for giving incomes to Drug addicts and Loafers. While I am all for helping people I have worked for everything I have and expect them to do the same, it is their choice if they choose not to. And I expect you to do your job you were elected by the tax payers of this State to do. Not line your corrupt, immoral pockets by looking for votes from these people. A State Sales Tax is not what we need. What we need is for you to actually do your job. How about take care of the problems in Portland? Taking care of the rising crime problem? The rising inflation issue and the string of failures that plague your inept President. Do your job for the people or get out of office. Again, a State Sales Tax is not what we need or want. There are plenty of other issues you have failed at that need attention.
