

Submitter: Lucy Gunderson
On Behalf Of: Nurses in Oregon
Committee: Senate Committee On Labor and Business
Measure: SB1549

I'd like to first off thank you for the opportunity to kindly oppose this bill. OHA overseeing the wages of nurses and other healthcare workers is unacceptable. Individual companies invest in the value of their employees. Allowing a third party to govern this, is to say that these businesses are ill equipped or incapable. Please allow the employee/employer relationship to remain between these two parties. Thank you for your time.
