

Submitter: Vicki House  
On Behalf Of: Bend  
Committee: House Committee On Human Services  
Measure: HB4079

I am opposed of this tax. Let me explain. I have been homeless for 2 years. Because of rental increases over the last decade. Increasing taxes will not solve the problem. But that is always the first thing these lobbyists go for. Get rid of taxes and people can use their money to provide for housing and the basic needs to survive. It's quite simple. Taxes are misrepresented. I made 160 last month and my net pay was 119. This was a temp job. Which last 5 days. Instead of increasing taxes on luxury items how about you stop taxing us rich or poor. It's taxation without representation. Let a man or woman be rewarded for his or her labor. Also these vaccinations and mandates need to be eradicated which is hurting people from working. Stop with saying your for the people but all you do is want more taxes. Stealing from the rich and the poor. You live in America. Act like it. You are supposed to be for the people not be about socialism
