

Submitter: Christopher Spencer

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4011

I strongly oppose this bill because it does not already have the funds allocated for it. It forms another faction of failing Oregon bureaucracy to suck money from the voting base. The state hospital size and staff has been reduced in previous years. I saw the wrecking ball taking down the old building in Salem furnished with lockers, desks and chairs. Demolished, sent to the landfill where this bill to should be. We give the state money and they waste it away.
