

Submitter: Christina Carmichael
On Behalf Of:
Committee: House Committee On Human Services
Measure: HB4079

I oppose taxing citizens to provide more welfare to low income people. We have so many entry level positions available for unemployed workers but they don't want to work them because getting handouts is easier. I already pay over 30% of my income in taxes and another 7% on health insurance. This is insane and needs to stop now. Stop printing funny money to incentivize people to stay home. Arbys can't even stay open the whole day due to the shortage of workers.... You create these worker shortages when you take my taxes and tell them to stay home and live off me. All I wanted was an Arbys melt but they had no staff.
