

Submitter: shere Paquette

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

I strongly oppose HB4079. Oregon already has one of the highest income and property taxes in the country. Our legislature has wasted our money, has a budget surplus from covid relief, and this will not have any significant benefit for the state. As someone who has worked directly in addiction treatment and with the homeless, this money would be wasted and enable negative behaviors. It does not address the underlying causes of homelessness and only throws on an ineffective bandaid at the cost of hardworking Oregonians. We have already been hit hard enough by the governor's economic-killing policies. Stop doing things that leave working people more poor!!!

Stop trying to steal more money from the people to pay for your nonsense ideas!  
The leftists in Oregon are over-playing their hand so much that the people will revolt and throw them out!
