Measure: SB1549

Healthcare workers have gone through some of the most extreme settings we were like soldiers in a war without the proper equipment we should be held as heroes!! To Nurses salary is an insult healthcare workers are leaving the industry because of stress not just due to Covid we are getting yelled at that we are getting threatened verbally attacked physically attacked every day we put our life into Jeopardy if you want to lose a whole workforce keep the wages and then get on licensed professionals to take care of the most vulnerable population.
