

Submitter: Danette Bialous

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

Our representatives continue to miss represent the people of Oregon. At least 8 times the sales tax has been rejected in a vote. The representatives in Salem clearly have their own agenda. People at poverty level need to become individuals who have integrity, self worth and stop relying on hand outs from people who have hard to to established themselves as motivated working individuals. This tax is another way of punishing the working people of Oregon. Please reflect on that. Stop punishing the people of Oregon that have great work ethics and work hard for themselves and families.
