

Submitter: Richard Ratter
On Behalf Of: Oppose
Committee: Senate Committee On Energy and Environment
Measure: SB1589

We oppose banning wake surfing in the Newberg pool.

We live on the river in the Newberg Pool and are effected by all boats and individuals. We do everything from paddle board, surf, fish, anything water related. The river needs to be open to all water sports. We have lived in the river over 20 years, are main erosion events ever year are the winter storms and high water events.
