

Submitter: Lee Garrett

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4151

It is time for Oregon to permit self-service gas, particularly since Bill 4151 makes important allowance for requiring attendants to dispense fuel for those who do not wish to do it themselves.

Long lines at gas stations that are unable to attract employees are but one indication of much driver frustration with Oregon's antiquated current law.

Please advance this Bill as quickly as possible.

Thank you,  
Lee Garrett
