

Submitter: Everett Stilley
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB4151

I am pleased to submit my testimony in support of HB 4151.

On a recent drive to work, I passed a gas station with a sign saying it was closed due to the labor shortage. Even at the large stations there is often only one attendant working. Allowing self serve while preserving the option to have an attendant assist seems like a great compromise to address this issue. Oregonians will be rewarded with an extra few minutes in their day if they choose to pump themselves, as well as a chance to prepare their children for travel outside of the Willamette Valley.

This bill is also a great opportunity for bipartisan lawmaking in Salem. Surveys have shown 69% of Oregonians support having the option of self serve gasoline, an opinion that transcends ideological boundaries.

I look forward to this bill becoming law.

Everett Stilley
