

Submitter: Chrysanne Zghoul
On Behalf Of: All Oregonians
Committee: Joint Committee On Transportation
Measure: HB4151

I support self service gas pumping in Oregon mainly because of the long wait in lines the lack of employees to pump peoples gas in a timely manner. People wanna be responsible for their own vehicle and damage to said vehicle by a gas station attendants, which has occurred in many instances putting the brunt of the damage on Gas Stations owners and insurance companies. Pumping our own gas in Oregon would be a good thing for all Oregonians, it's time to get in line with other states and take Oregon out of the old ways.
