

Submitter: Granella Thompson

On Behalf Of:

Committee: House Committee On Business and Labor

Measure: HB4002

We farm a century old family farm. We pay generously at harvest time to get the same reliable workers to return year after year. We do not need government setting inflexible one size fits all on how we take care of our workers during harvest. We need to be able to work long hours some times, short hours some times, and they make a total wage that allows them a decent living. We can take care of our own and totally oppose this interference in our business. Quit making it so hard to stay in business.
