Measure: HB4002

I am writing to express my support for HB 4002. Farm laborers are deserving of being paid the same for overtime work as any other workers. The existence of small farms is largely a myth. Most farming is done by large corporate entities quite capable of paying higher wages for overtime work. The notion of paying less for farm products produced by the sweat of low paid labor is something that ought not be allowed. HB 4002 accomplishes that objective.
