

Submitter: Celeste Wolf

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

I am in support of this bill. This bill will help support individuals surviving on the unlivable minimum wage. Giving individuals this extra money will help alleviate the burden on human services ie SNAP, general assistance, section 8 because they will not need all the assistance. More money makes life less stressful therefore we will see a decrease in childhood neglect/abuse and domestic violence. The bill will give individuals the choice on where to give their labor. This bill will reduce crime, stimulate the economy, and end poverty for these individuals.
