

Submitter: Amie Mitchell

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

While we do believe the homeless need to be helped and a solution is needed, this is NOT the way.

There are alot of homeless people that would like to change their lives and need a hand up to do so and there are also many who have no desire to change, and many with mental issues who cant even make decisions. It's a heartbreaking situation.

Oregon needs to budget and use the money it has to work on solutions. Your residents are not pleased with the proposed

HB 7049 and do NOT want a Sales tax.
