Measure: HB4079

Supporting families is the right thing to do. We all know this. Pontificating on why it's important is asking people whose house is burning why they need a hose for water. A basic income, especially in a state with rapidly rising costs, is going to be more efficient in the long run than if you were to see your Oregon neighbor displaced onto the streets. Make the right choice in supporting your neighbors who need the leg up. Poverty doesn't care what political party you choose or what part of Oregon you live in, poverty just strips you of dignity that is harder to get back than it is to support people with basic income. Do the right thing!
