

Submitter: Brian Belet

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: HB4080

I write to express my opposition to HB 4080. I cannot imagine how this program serves the greater good of Oregon, especially when scientific research shows that such killing of wildlife does not actually reduce problems caused when human activities (including ranching and farming) intersect with wildlife.

There are other ways – more enlightened ways – of dealing with wildlife in these instances. Sadly, Wildlife Services has a very poor record in this field of operation. Please vote "No" on HB 4080 in your committee, and prevent it from moving forward this legislative session.

Thank you for your time.
