

Submitter: Jeffrey Wilent

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4151

I can keep this brief. The other 48 states already allow people to pump their own gas. Why is Oregon and New Jersey still in the dark ages? It's my car let me be the one to service it. There's enough available work out there that the attendants can get a more impactful job to society elsewhere. I fully support letting us pump our own gas! It just makes sense.
