

Submitter: David Wall  
On Behalf Of: Mr Oregon OPPOSES SB 1518  
Committee: Senate Committee On Energy and Environment  
Measure: SB1518

Tuesday; [02.08.22]

I OPPOSE [SB 1518].

Do the supporters of [SB 1518] understand and appreciate the cost of this program arising from multiple inspection regimens for two sets of building codes?

Have the supporters of [SB 1518] currently and into the near future, use any fossil fuels and or corresponding products?

How will Oregon fuel its' power requirements?

How will reliable electric power be generated-certainly not from windmills and solar.

[SB 1518] was created with good intentions but fails miserably as one pencils out the costs.

Is anyone paying attention to the financial markets? Inflation is an admitted 7.3% and climbing. Was inflation rates factored into [SB 1518]?

Go Back to the drawing board.

David S. Wall  
Mr. Oregon Concurs.
