

Submitter: Melissa DeSimone

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

I represent the Michigan Lakes and Streams Association (MLSA), an organization of lake and stream property owners and partners throughout the state of Michigan. We have been working closely for over a year with Oregon River Preservation and Safety Alliance (ORSPA) on the issue of wakes and their effects on the health of lakes and streams throughout the country. Oregon River Preservation and Safety Alliance (ORSPA) has used peer reviewed research to form scientifically based conclusions and we support their efforts for SB1589.
