Measure: HB4002

Why should farmworkers, the people that are essential to produce the food we eat daily, be exempt from overtime pay? They deserve to be treated the same as other workers. This is about holding true to our values as State that all workers deserve the right to fair wages and economic security. Oregon is behind other states in providing protections and overtime pay to the essential migrant and seasonal workers that our food system depends on. We need to pass Farmworker Overtime as soon as possible so we can all emerge stronger.
