As a 4th generation Oregon Farmer's daughter I sincerely and urgently hope that you will support the Farmworker Overtime bill. Our farmworkers are the heart of our local economy and community and are deserve the respect and equal benefits and rights as any other essential worker. Oregon's food production and distribution system is anchored by migrant and seasonal agricultural workers, yet these essential workers are excluded from overtime pay. I believe that farmworkers deserve to be treated the same as all other workers.

Extending overtime pay for Oregon's farmworkers is necessary to improve their economic security and decrease food insecurity. Throughout the pandemic, catastrophic fires and hazardous air quality levels, farmworkers continued to work to support Oregon's multibillion dollar agricultural industry and keep our food systems afloat. Oregon is behind other states in providing protections and overtime pay to the essential migrant and seasonal workers that our food system depends on. We need to pass Farmworker Overtime as soon as possible so we can all emerge stronger.
